# DAEDALUS BATTERY V3

All of our Daedalus e-spinners require 15V power. Our official Daedalus Battery V3 can change voltage simply by pressing the power button until 15V appears. The Daedalus Battery V3 uses an 18v 3amp power supply. *Do not swap this power supply with your wheel's power supply for any reason.*

**Input (long side of battery)** - for charging your battery

**Output (short side of battery)** - for powering your wheel

## Best Practices

- Do not attempt to charge the battery and operate the wheel at the same time.
- Do not use your wheel's power supply to charge the battery. Conversely, do not use the battery's power supply to power your wheel. Label your cords to avoid a mixup.
- If your e-spinner is going slower/faster than you remember it spinning at your usual settings, check the battery setting to ensure that it is still set to 15V.
- The battery will power off if the e-spinner is not drawing enough power from it. This happens with the Sparrow if the speed is set too low, and sometimes with the Starling. To compensate for this, you can use a USB-powered light while your battery is in use, or simply charge your phone using the USB port.
- To ensure the longest possible life for your Daedalus Battery, please do not store it fully charged for extended periods of time. The proper storage charge is between 50% and 75%. Check the battery often while it is in storage, to make sure its charge state is within 50-75%.

# SAFETY NOTES & DISCLAIMER

All of our spinners and winders are capable of high energy speeds. Please be mindful of your children and pets by keeping your wheel in neutral and unplugged from power at all times when you are away from it. This will ensure maximum safety when you step away from your wheel or winder.

All Daedalus Spinning Wheels use 15V power supplies. Using anything other than 15V can be harmful to your wheel and void your warranty. When using a battery, please ensure it is set to 15V.

**Daedalus Spinning Wheels LLC and Spotted Ewe Fibers LLC will not be held liable for any damages incurred to persons or property due to the use of non-approved third-party manufactured components on our products. Doing so will void your warranty. Please email us with any questions regarding modifications or third-party equipment.**
